THEORETICAL AND APPLIED GENETICS

Founded in 1929 under the title 'Der Züchter' as a German journal for theoretical and applied genetics and edited until 1945 by Erwin Baur; changed from a national journal devoted almost exclusively to plant breeding to an international periodical for genetics and breeding research under the same title 'Der Züchter in 1966; in 1968 to 'Theoretical and Applied Genetics'; edited by H. Stubbe from 1946 to 1976.

The exclusive copyright for all languages and countries, including the right for photomechanical and any other reproduction, also in microform, is transferred to the publisher.

The use of registered names, trademarks, etc. in this publication does not imply, even in the absence of a specific statement, that such names are exempt from the relevant protective laws and regulations and therefore free for general use.

Table of Contents

Originals

Ali, A.: s. Kasha, K.J., 238

Arunachalam, V.; Iyer, R.D.: A Non-destructive Selection Criterion for Fibre Content in Jute
III. The Criterion and its Prospects 129

Bergmann, F.: The Allelic Distribution at an Acid Phosphatase Locus in Norway Spruce (*Picea abies*) Along Similar Climatic Gradients 57

Blumenberg, B.: s. Todd, N.B., 257

Bohren, B.B.: s. Garwood, V.A., 227

Brown, A.H.D.: Isozymes, Plant Population Genetic Structure and Genetic Conservation 145

Caldwell, K.A.; Kasarda, D.D.: Assessment of Genomic and Species Relationships in *Triticum* and *Aegilops* by PAGE and by Differential Staining of Seed Albumins and Globulins 273

Caligari, P.D.S.; Hanks, M.J.: Genetical Analysis of Components of Overall Plant Shape 65

Cavicchi, S.; Palenzona, D.L.; Pancaldi, C.; Giorgi, G.: Univariate and Multivariate Analysis on Phenotypic Divergence in *Phleum* 39

Cellarius, S.F.: s. Ruvinsky, A.O., 269

Cellarius, Yu. G.: s. Ruvinsky, A.O., 269

Currah, L.: s. Ockendon, D.J., 233

Dalal, M.A.: s. Singh, C.B., 165

Desborough, S.L.: s. Synder, J.C., 135

Desborough, S.L.: s. Rickeman, V.S., 187

Desborough, S.L.: s. Rickeman, V.S., 217

Dhillon, B.S.; Singh, J.: Evaluation of Circulant Partial Diallel Crosses in Maize 29

Done, A.C.; Macer, R.C.F.: Assessment of Barley Varieties as Potential Pollen-Parents for F_1 – Hybrid Varieties 171

Dormling, I.: s. Eriksson, G., 3

Ekberg, I.: s. Eriksson, G., 3

Eriksson, G.; Ekberg, I.; Dormling, I.; Matérn, B.; v. Wettstein, D.: Inheritance of Bud-Set and Bud-Flushing in *Picea Abies* (L.) *Karst* 3

Garwood, V.A.; Lowe, P.C.; Bohren, B.B.: A Replicated Single Generation Test of a Restricted Selections Index in Poultry 227

Giorgi, G.: s. Cavicchi, S., 39

Hanks, M.J.: s. Caligari, P.D.S., 65

Hauptli, H.; Jain, S.K.: Biosystematics and Agronomic Potential of Some Weedy and Cultivated Amaranths 177

Hayter, A.M.; Riggs, T.J.: The Inheritance of Diastatic Power and Alpha-Amylase Contents in Spring Barley 251

Iyer, R.D.: s. Arunachalam, V., 129

Jacobsen, E.; Sopory, S.K.: The Influence and Possible Recombination of Genotypes on the Production of Microspore Embryoids in Anther Cultures of *Solanum tuberosum* and Dihaploid Hybrids 119

Jain, S.K.: s. Hauptli, H., 177

Kasarda, D.D.: s. Caldwell, K.A., 273

Kasha, K.J.: Effect of Gibberellic Acid Treatment, and Nutrient Supply through Detached Tillers, upon Haploid Frequency in Barley. Correction 238

Lavie, B.; Ritte, U.; Moav, R.: The Genetic Basis of Egg Lay Response to Conditioned Medium in the Flour Beetle, *Tribolium castaneum*.
I. Two-Way Selection 193

Lin, C.Y.: Index Selection for Genetic Improvement of Quantitative Characters 49

Lowe, P.C.: s. Garwood, V.A., 227

Macer, R.C.F.: s. Done, A.C., 171

Maletsky, S.I.; Weisman, N.J.: A Population Genetic Analysis of Self- and Cross Incompatibility in Sugar Beet (*Beta Vulgaris* L.) 21

Maliga, P.: s. Yurina, N.P., 125

Marks, H.L.: Long Term Selection for Four-Week Body Weight in Japanese Quail under Different Nutritional Environments 105

NEW FROM ISI®

INDEX TO SCIENTIFIC & TECHNICAL PROCEEDINGS™

There has never been an effective way to search the proceedings literature. Until now.

Now, ISI introduces the Index to Scientific & Technical Proceedings—the first multidisciplinary tool to conference proceedings and the individual papers published in them—the effective answer to the problem of searches in the proceedings literature.

Current and Comprehensive . . .

ISTP™ indexes 3,000 proceedings annually—over 80,000 individual papers—from conference proceedings published in book form and in the journal literature. Broad coverage includes: life sciences • clinical medicine • engineering and applied sciences • physical and chemical sciences • biological, environmental and energy sciences. **ISTP** is issued monthly and cumulated twice a year, so you get the index to proceedings shortly after their publication.

. . . and Effectively Indexed.

An unequaled system of indexes offers you effective searches with a minimum of starting information. You can locate complete entries of proceedings and papers—in an easy-to-read contents page format—with just a speaker's name . . . a sponsor . . . even a speaker's organizational affiliation. Or by conference topic, title words, or geographical location. And you get all the data you need to order books or request interlibrary loans. You even get first authors' addresses for reprint requests.

ISI's Index to Scientific & Technical Proceedings offers an effective new approach to locating the scientific and technical information in conference proceedings. Subscriptions will begin in 1978, at $500 annually. Use the coupon below to enter your order today.

☐ Please enter my subscription to **Index to Scientific & Technical Proceedings™** for 1978, at $500 annually.

☐ Please send more information.

☐ Please send Air Mail
Europe, South & Central America, add $100
All other locations, add $125
(Air Mail not available in U.S.A., Canada or Mexico)

THEORETICAL AND APPLIED GENETICS

International Journal of Breeding Research and Cell Genetics

Editorial Board

	Addresses of Editors	Fields of Competence
H. Abplanalp	College of Agricultural and Environmental Sciences, Agricultural Experiment Station, Department of Avian Sciences, University of California, Davis, California 95616 (USA)	Animal breeding (poultry, laboratory species), quantitative genetics
L. Alföldi	Magyar Tudományos Akadémia, Szegedi Biológiai Központ, Genetikai Intézete, Szeged, Pf. 521 (Hungary)	Somatic cell genetics, microbial genetics
R. W. Allard	Department of Genetics, University of California, Davis, California 95616 (USA)	Population genetics, plant genetics
S. Barbacki	Polska Akademia Nauk, Zakład Genetyki Roślin, Strzeszyńska 30/36, 60–479 Poznań (Poland)	Genetics and plant breeding
J. S. F. Barker	Department of Animal Husbandry, University of Sydney, Sydney, N.S.W. 2006 (Australia)	Animal breeding, experimental quantitative genetics (animals), population genetics
D. K. Belyaev	Institute of Cytology and Genetics, Academy of Sciences of the USSR, Siberian Department Novosibirsk – 90 (USSR)	Plant breeding
Y. Y. Gleba	Max-Planck-Institut für Pflanzengenetik, Rosenhof, D-6802 Ladenburg (Germany)	Plant cell genetics, somatic cell hybridization, plant cell and protoplast culture
Å. Gustafsson	Genetiska Institutionen, Lunds Universitet, Sölvegatan 29, S 22362 Lund (Sweden)	Crop plant research, apomixis, polyploidy, mutation in phanerogams
R. Hagemann	Martin-Luther-Universität Halle-Wittenberg, Sektion Biowissenschaften, FB Genetik, Domplatz 1, DDR-4020 Halle/S. (Germany)	Plastmatic and plastid inheritance, male sterility, genetic instability, paramutations, tomato genetics
R. C. Lewontin	Museum of Comparative Zoology, The Agassiz Museum, Harvard University, Cambridge, Massachusetts 02 138 (USA)	Population genetics, genetic variation in natural populations
W. J. Libby	School of Forestry and Conservation, Agricultural Experiment Station, University of California, Berkeley, Calif. 94720 (USA)	Forest genetics, genetic mechanisms of juvenility or aging, quantitative genetics
H. F. Linskens (Managing Editor)	Editorial Office: c/o Department of Botany, University, Toernooiveld, 6525 ED – Nijmegen (the Netherlands)	Biochemical genetics, incompatibility, incongruity
J. Mac Key	Department of Genetics and Plant Breeding, Royal Agricultural College of Sweden, Box 7034, S 75007 Uppsala 7 (Sweden)	Autogamous plant breeding, taxonomy of crop plants, yield structure, disease resistance
P. Maliga	Institute of Plant Physiology, Biological Research Center, Hungarian Academy of Sciences, P. O. Box 521, H-7601 Szeged (Hungary)	Plant cell genetics
F. Mechelke	Institut für Allgemeine Genetik der Universität Hohenheim, Kirchnerstr. 7, D-7000 Stuttgart-Hohenheim (Germany)	Polyploidy breeding, karyotype analysis
G. Melchers	Max-Planck-Institut für Biologie, Corrensstr. 41, D-7400 Tübingen (Germany)	Combination of cell and conventional genetics
B. R. Murty	Nuclear Research Laboratory, Indian Agricultural Research Institute, New Delhi – 110012 (India)	Biometrical radiation and population genetics, plant breeding
O. E. Nelson	Department of Genetics, University of Wisconsin, Madison, Wisconsin 53706 (USA)	Physiological genetics of higher plants, genetic fine structure
P. L. Pfahler	Department of Agronomy, Institute of Food and Agricultural Sciences, University of Florida, Gainsville, Florida 32611 (USA)	Genetics and breeding of maise, barley, oats
R. Riley, F.R.S.	Plant Breeding Institute, Maris Lane, Trumpinton, Cambridge CB2 2LQ (Great Britain)	Cytogenetics especially of plants, its application to crop breeding, crop plant evolution, temperate plant breeding
A. Robertson, F.R.S.	Institute of Animal Genetics, University of Edinburgh, West Mains Road, Edinburgh EH9 3JN (Great Britain)	Animal breeding, quantitative, theoretical and experimental population genetics
H. Skjervold	Institute of Animal Genetics and Breeding, The Agricultural College of Norway, Box 18, Vollebekk (Norway)	Animal population genetics
P. Spiegel-Roy	Agricultural Research Organization, Volcani Centre, P.O.B.6, Bet Dagan (Israel)	Mutation breeding, fruit tree breeding, tissue culture
H. Stubbe	Zentralinstitut für Genetik und Kulturpflanzenforschung der Akademie der Wissenschaften der DDR, DDR-4325 Gatersleben, Kr. Aschersleben (Germany)	Plant genetics and breeding
K. Tsunewaki	Laboratory of Genetics, Faculty of Agriculture Kyoto University, Kyoto (Japan)	Plant genetics (especially of wheat), cytogenetics, cytoplasma inheritance
L. D. Van Vleck	New York State College of Agriculture at Cornell University, Department of Animal Science, Frank B Morrison Hall, Ithaca, N. Y. 14850 (USA)	Quantitative genetics especially as applied to animals
G. Wenzel	Max-Planck-Institut für Züchtungsforschung, D-5000 Köln (Germany)	Cell genetics and haploids in plant breeding
D. von Wettstein	Carlsberg Laboratory, Department of Physiology, Gl. Carlsbergvej 10, DK-2500 Copenhagen Valby (Denmark)	Cell organelles, radiation and chemical mutagenesis, developmental and biochemical genetics, breeding of barley, yeast and forest trees, breeding for protein quality
